Dear Mr. Nation:

I would like first to thank you and the Council for allowing me to discuss our tax abatement and the Council's subsequent approval of the abatement on June 30th. At that time you had mentioned that you toured our facility in 2012, since 2012 much has changed with our site and I think you will be impressed with our products and technology. I would like to extend an invitation to you and the Council to be my guest for a tour of our site on August 24th 2016 at a time convenient for all of you.

Please feel free to contact me by phone or email and let me know if this date works for the Council and a good time for all of you to attend.

Sincerely,

Dan Hughes
Sr. Manager Finance
